DETAILED ACTION

1. Claims 1, 4-7, 9-12, 15-18, and 20-21, as amended on 12/10/2007, are pending in the instant application. Applicant's amendments and arguments submitted 12/10/2007 have been carefully and fully considered, and are found to overcome the prior art of record. Accordingly, the instant application is in condition for allowance.

Reasons for Allowance

2. **Claims 1, 4-7, 9-12, 15-18, and 20-21** are allowed.
3. **Claim 1** recites the limitation "*an identification module configured to identify a tape storage medium as full when the user-defined capacity of the tape storage medium has been used to store the data and to mark the tape storage medium as full*".
4. **Claim 9** recites the limitation "*an identification module that is configured to identify a tape storage device as full when the user-defined capacity of the storage medium is used to store the data and to mark the tape storage medium as full*".
5. **Claim 12** recites the limitation "*identifying a tape storage device as full when the user-defined capacity of the tape storage medium is used to store the data and to mark the tape storage medium as full*".
6. These limitations are taught by the specification as originally filed at least at paragraphs 0050 and 0064, and are argued by applicant in the first and second paragraphs beginning on page 9 of the remarks submitted 12/10/2007. Said limitations, in combination with the other recited limitations of claims 1, 9, and 12, are not taught or fairly suggested by the prior art of record.
